

## International Relations

### Grading Tables

This grading table has been realized through the Egracons project. Data used are the years 2017-2019.

The **Egracons (European Grade Conversion System)** project is a Lifelong Learning project (2012-2015) co-funded by the European commission aiming to facilitate exchange mobility by working out a conversion system based on ECTS grade conversion tables as recommended in the EU's ECTS Users' guide.

Please join the project !

#### ***0714 Master of Sciences in Industrial Engineering (automation) Master en Ingénieur industriel (automatisation)***

| LOCAL Grade | ECTS Grade | % of successful students normally achieving the grade | Cumulated % of successful students normally achieving the grade |
|-------------|------------|-------------------------------------------------------|-----------------------------------------------------------------|
| 20          | A          | 0.19                                                  | 0.19                                                            |
| 19          | A          | 2.08                                                  | 2.27                                                            |
| 18          | A          | 3.78                                                  | 6.05                                                            |
| 17          | A          | 8.32                                                  | 14.37                                                           |
| 16          | A          | 13.04                                                 | 27.41                                                           |
| 15          | B          | 15.31                                                 | 42.72                                                           |
| 14          | B          | 14.18                                                 | 56.9                                                            |
| 13          | C          | 14.37                                                 | 71.27                                                           |
| 12          | C          | 10.4                                                  | 81.66                                                           |
| 11          | D          | 10.21                                                 | 91.87                                                           |
| 10          | E          | 8.13                                                  | 100                                                             |

In Henallux, a course is validated with a mark of 10 out of 20. Below 10/20, it is a fail.
